

VIPER HEAVY DUTY

Universal coil cleaner and degreaser

PRODUCT OVERVIEW

Use Viper Heavy Duty as an alternative to hazardous acid or alkaline cleaners for unbelievable multipurpose cleaning and degreasing performance on coils, heat exchangers and other surfaces. It is non-flammable, contains no hazardous ingredients, produces no toxic fumes, is non-irritating, pH neutral, biodegradable and food industry compliant (NSF certified).

USED WHERE

HVACR condensers, HVACR evaporators, radiators, intercoolers, EV thermal management heat exchangers, drivetrain hardware and components, engine bays AHU rooms, cold rooms and refrigerated trailers.

See *Where to Use* on pages 31-34.

USED HOW

Visit SuperCool.com.au or scan the QR code below to access the Technical Data Sheet for Viper Heavy Duty.

FAST FACTS

- Effectively destroys heavy organic or synthetic contaminants such as mould, petroleum-based grease, dirt and natural fats
- Compared with an alkaline product such as Viper Brite (RT300G) or Viper Brightener Cleaner (RT310V), Viper Heavy Duty will not lift oxidation and hard carbon deposits
- Minimal clean-up: Evaporators need no rinsing and just a light water rinse is required for other coils and heat exchangers
- Doubles as a brilliant cold room / AHU room / refrigerated trailer cleaner and degreaser.
- Safe to use on all surfaces, plastics and rubbers

Part number: RT390G
