

## DEKS Top Hat Roof Kit

The Top Hat Roof Kit consists of five components that create a roof penetration system which is quick and easy to install, saving you time and money. Our unique roof penetration kit ensures that all pipework goes through one penetration to meet regulatory requirements and to reduce the risk of roof leaks. It is the only product that directly caters for the penetration of HVAC, solar pipework, plumbing pipework, electrical conduits and cables.

**Everything you need in one kit**  
Saves you time – quick and easy installation.

**Suits Multiple Applications**  
Caters for the penetration of HVAC, solar and plumbing pipe work, electrical conduits and cables.

**Bringing all pipework through one penetration**  
Compliant – Meets regulatory requirements, adheres to industry code of practices, and reduces the risk of leakage.

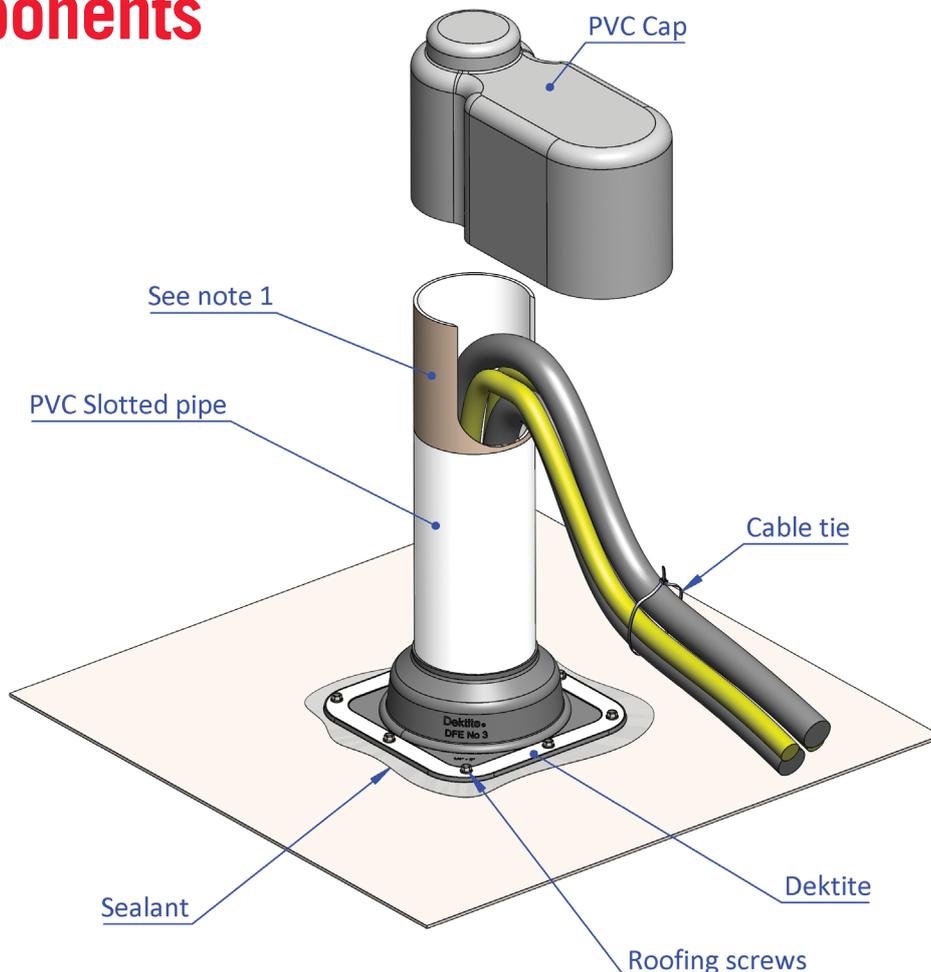

## Selection Guide

DEKS Code	Tube Diameter	Suits copper sizes					
		1/4"–3/8" or 6.4–9.5mm	1/4"–1/2" or 6.4–12.7mm	1/4"–5/8" or 6.4–15.9mm	3/8"–5/8" or 9.5–15.9mm	3/8"–3/4" or 9.5–19mm	1/2"–3/4" or 12.7–19mm
DTHRKIT65	2½" or 65mm	✓	✓				
DTHRKIT80	3" or 80mm	✓	✓	✓	✓		
DTHRKIT110	4¼" or 110mm	✓	✓	✓	✓	✓	✓

Note: To achieve the best result we recommend using a bending tool for the copper pipe.

## Kit Components

Note 1 : Optimum performance is achieved when PVC solvent adhesive is used on these parts
