

Data Sheet

Shut-off valve  
Type **SVA-S SS** and **SVA-L SS**

Designed for highly demanding production environments,  
where corrosion is a risk

In certain specific areas such as outdoor applications and corrosive atmospheres, such as coastal installations, there is a need for high surface protection to prevent failure due to corrosion.

Today's food safety standards often call for daily treatment with detergents to protect against bacteria growth, again producing a need for high surface protection.

SVA-S/L SS are angleway and straightway stainless steel shut-off valves, which are designed to meet all industrial refrigeration application requirements.

The valves are designed to give favourable flow characteristics and are easy to dismantle and repair when necessary. The valve cone is designed to ensure perfect closing.

## Features

- Applicable to HCFC, HFC, R717 (Ammonia), R744 (CO<sub>2</sub>) and all flammable refrigerants
- Optional accessories:
  - Heavy duty industrial hand wheel for frequent operation
  - Cap for infrequent operation
- Available in angleway and straightway versions with Standard neck or Long neck (DN 15 to DN 40) for insulated systems
- Designed to give favourable flow conditions
- Internal backseating enables replacement of the spindle seal whilst the valve is active, i.e. under pressure
- Housing is made of stainless steel approved for low temperature operations
- Easy to disassemble for inspection and service
- SVA-S/L SS shut-off valves can accept flow in either direction
- Butt-weld DIN, Butt-weld ANSI and Socket Weld connections
- Maximum allowable working pressure and temperature range:
  - DN 15-65: 52 bar (754 psi) at -60 °C/+50 °C (-76 °F/+122 °F)
  - DN 80-150: 50 bar (725 psi) at -60 °C/+50 °C (-76 °F/+122 °F) For SVA-S/L SS see the relation between PS and temperature in the curve on [Figure 1](#) page 4
- Temperature range: -60 °C/+150 °C (-76 °F +302 °F)
- Compact and light valves for easy handling and installation
- Classification: DNV, CRN, BV, EAC etc. To get an updated list of certification on the products please contact your local Danfoss Sales Company

## Media

### **Refrigerants**

Applicable to HCFC, HFC, R717 (Ammonia), R744 (CO<sub>2</sub>) and all flammable refrigerants. For further information please contact your local Danfoss Sales Company.

### **New refrigerants**

Danfoss products are continually evaluated for use with new refrigerants depending on market requirements.

When a refrigerant is approved for use by Danfoss, it is added to the relevant portfolio, and the R number of the refrigerant (e.g. R513A) will be added to the technical data of the code number. Therefore, products for specific refrigerants are best checked at [store.danfoss.com/en/](https://store.danfoss.com/en/), or by contacting your local Danfoss representative.

## Installation

It is recommended that the valves be installed in the direction of flow indicated by the arrow on the valve body. The valve can be installed in the opposite direction but this slightly reduces the  $k_v$ -value ( $C_v$ -value).

The valve is designed to withstand high internal pressure. However, the piping system in general should be designed to avoid liquid traps and reduce the risk of hydraulic pressure caused by thermal expansion.

For further information refer to installation guide for SVA-S/L SS.

## Connections

### Available with the following connections:

- Butt-weld DIN (EN 10220)
  - DN 15 - 125 (½ - 5 in.)
- Butt-weld ANSI (B 36.19M)
  - DN 15 - 150 (½ - 6 in.)
- Socket Weld (ANSI B 16.11)
  - DN 20 - DN 50 (¾ - 2 in.)

**ANG** = Angleway  
**STR** = Straightway  
**CAP** = Cap  
**H-WHEEL** = Hand wheel

**Example:**

**SVA-S SS 20** DIN angleway with hand wheel = **148B5377**

**NOTE:**

Where products need to be certified according to specific certification societies or where higher pressures are required, the relevant information should be included at the time of order.

### Ordering SVA-L SS

#### SVA-L SS Angleway

40	1½	SVA-L SS 40 D STR CAP	52	754	148B6565

## Shut-off valve, Type SVA-S SS and SVA-L SS

---

**ANG** = Angleway

**STR** = Straightway

**CAP** = Cap

**H-WHEEL** = Hand wheel

## Certificates, declarations, and approvals

The list contains all certificates, declarations, and approvals for this product type. Individual code number may have some or all of these approvals, and certain local approvals may not appear on the list.

Some approvals may change over time. You can check the most current status at [danfoss.com](http://danfoss.com) or contact your local Danfoss representative if you have any questions.

**Table 28: Valid approvals**

Type	File name	Document type	Document topic	Approval authority
SVA-SS	033F0686.AH	Manufacturers Declaration	PED	Danfoss
	033F0453.AD	Manufacturers Declaration	ATEX	Danfoss
	TSSA CRN.0C16578.523467890YTN	Pressure - Safety Certificate	CRN	TSSA
	033F0691.AE	Manufacturers Declaration	RoHS	Danfoss

**Table 29: Pressure Equipment Directive (PED)**

	The stainless steel valves are approved and CE marked in accordance with the Pressure Equipment Directive - 97/23/EC.

**Table 30: Compliance**

SVA-S/L SS			
<b>Nominal bore</b>	DN≤ 25 mm (1 in.)	DN32-80 mm (1¼ - 3 in.)	DN 100 - 150 mm (4 - 6 in.)
<b>Classified for</b>	Fluid group I		
<b>Category</b>	Article 4, paragraph 3	II	III

## Online support

Danfoss offers a wide range of support along with our products, including digital product information, software, mobile apps, and expert guidance. See the possibilities below.

### The Danfoss Product Store

The Danfoss Product Store is your one-stop shop for everything product related—no matter where you are in the world or what area of the cooling industry you work in. Get quick access to essential information like product specs, code numbers, technical documentation, certifications, accessories, and more.

Start browsing at [store.danfoss.com](https://store.danfoss.com).

### Find technical documentation

Find the technical documentation you need to get your project up and running. Get direct access to our official collection of data sheets, certificates and declarations, manuals and guides, 3D models and drawings, case stories, brochures, and much more.

Start searching now at [www.danfoss.com/en/service-and-support/documentation](https://www.danfoss.com/en/service-and-support/documentation).

### Get local information and support

Local Danfoss websites are the main sources for help and information about our company and products. Find product availability, get the latest regional news, or connect with a nearby expert—all in your own language.

Find your local Danfoss website here: [www.danfoss.com/en/choose-region](https://www.danfoss.com/en/choose-region).

### Danfoss Learning

Danfoss Learning is a free online learning platform. It features courses and materials specifically designed to help engineers, installers, service technicians, and wholesalers better understand the products, applications, industry topics, and trends that will help you do your job better.

Create your Danfoss Learning account for free at [www.danfoss.com/en/service-and-support/learning](https://www.danfoss.com/en/service-and-support/learning).

### Spare Parts

Get access to the Danfoss spare parts and service kit catalog right from your smartphone. The app contains a wide range of components for air conditioning and refrigeration applications, such as valves, strainers, pressure switches, and sensors.

Download the Spare Parts app for free at [www.danfoss.com/en/service-and-support/downloads](https://www.danfoss.com/en/service-and-support/downloads).

### Coolselector®2 - find the best components for you HVAC/R system

Coolselector®2 makes it easy for engineers, consultants, and designers to find and order the best components for refrigeration and air conditioning systems. Run calculations based on your operating conditions and then choose the best setup for your system design.

Download Coolselector®2 for free at [coolselector.danfoss.com](https://coolselector.danfoss.com).
